Professional Summary

Full Stack Software Engineer with **5+ years of experience** designing, developing, and deploying scalable web and mobile applications, SaaS platforms, and enterprise backend systems. Experienced in building high-performance REST APIs, microservices, cloud-native solutions, and production-grade applications using Node.js, NestJS, React, Next.js, Flutter, and modern DevOps practices. Strong expertise in cloud infrastructure, distributed systems, database design, CI/CD pipelines, Docker, Kubernetes, Terraform, AWS, and scalable software architecture with a focus on performance, security, and maintainability.

Professional Experience

Cosmemporium Limited

Jan 2025 – Present

Full Stack Software Developer

Remote

- Developed scalable web applications using Next.js, React, NestJS, and Node.js
- Built REST APIs, integrated third-party services, optimized databases, and deployed production applications on AWS
- Implemented CI/CD pipelines, Docker-based deployments, and microservices architecture

Omnisoft

Jan 2024 – Dec 2024

Full Stack Software Developer

Remote

- Developed SaaS platforms, backend services, dashboards, and Flutter mobile applications
- Designed scalable backend APIs using NestJS, PostgreSQL, Redis, and AWS
- Worked with authentication, payment integrations, real-time communication, and cloud infrastructure

Venre

Mar 2023 – Dec 2023

Junior Full Stack Developer

Lahore, Pakistan

- Developed production-ready web platforms using React, Next.js, Node.js, and PostgreSQL
- Built backend APIs, integrated third-party services, and maintained deployment workflows

VisNext

Jun 2022 – Feb 2023

Junior Software Developer

Lahore, Pakistan

- Developed frontend and backend modules while collaborating with senior developers
- Implemented REST APIs, database operations, and responsive web interfaces

Tech Hunter

Jan 2021 – May 2022

Mobile Application Developer

Lahore, Pakistan

- Built Android and iOS applications using Flutter with Firebase, REST APIs, push notifications, and payment integrations
- Published and maintained production mobile applications with performance optimizations

Bitlogicx

Jan 2020 – Dec 2020

Mobile Application Developer

Lahore, Pakistan

- Developed Flutter applications and contributed to responsive web interfaces
- Integrated APIs, fixed production issues, and collaborated on cross-platform mobile solutions

Technical Skills

Backend: Node.js, Nest.js, Express.js, REST APIs, GraphQL, Microservices, WebSockets, gRPC, Serverless Architecture

Databases: PostgreSQL, MySQL, MongoDB, DynamoDB, Redis, Firebase Firestore, SQL Optimization

Cloud & DevOps: AWS (EC2, S3, IAM, SES, Lambda, CloudFront, CloudWatch, Route53), Docker, Linux, Nginx, PM2

Containers & Orchestration: Docker, Docker Compose, Kubernetes, Helm

Messaging & Streaming: Apache Kafka, RabbitMQ, Redis Pub/Sub

IaC & CI/CD: Terraform, Jenkins, GitHub Actions, GitLab CI/CD, Bitbucket Pipelines

Code Quality & Testing: SonarQube, ESLint, Prettier, Jest, Postman, Swagger/OpenAPI

Networking & Tools: Cloudflare (DNS, CDN, SSL), ngrok, Postman, Insomnia, Git, GitHub, Bitbucket, Jira

Frontend: React.js, Next.js, Vue.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Shadcn UI

Mobile: Flutter, Dart, React Native, Android, iOS, Firebase, Push Notifications, Google Maps SDK

Authentication & Security: JWT, OAuth 2.0, RBAC, Firebase Authentication, Passport.js, API Security, CORS

Architecture: MVC, Clean Architecture, Repository Pattern, Event-Driven Architecture, Monolithic & Microservices Architecture

Monitoring & Logging: Winston, Morgan, Grafana, Prometheus, ELK Stack (Basics)

Development Practices: Agile/Scrum, SDLC, Design Patterns, Code Reviews, Performance Optimization, API Versioning

Education

Superior University Lahore

Bachelor of Software Engineering

OCT 2017 – OCT 2021

Lahore, Pakistan
